Veiksmes stāsts

"Aleksandrs uzsāka savu karjeru kompānijā 2010. gadā, kad tikko ieviestas procedūras bija jādāk īstenot dzīvē. Aleksandrs būdams Virszemes apkalpošanas tehnikas operators, ieguldīja ļoti daudz darba, lai procesi veiksmīgi īstenotos dzīvē. Aleksandram bija ļoti atvērta pieeja apgūt arī citus procesus uz perona un viņš pievienojās Lidmašīnu atleidošanas komandai ziemas sezonā. 2 gadu laikā Aleksandrs no Tehnikas operatora izauga uz Lidojumu koordinators vakanci, un 2018. gadā viņš izmācījās un kļuva par Lidmašīnu svara un balansa speciālistu. Pateicosies savai lojalitātei un ļoti akurātam darbam, Aleksandrs tika paaugstināts uz Lidmašīnu atleidošanas maiņas vecāko, kur viņa tiešie pienākumi ir rūpēties par resursu plānojumu, kā arī pārstāvēt Uzņēmumu starptautiskos auditos. 2018. gadā Aleksandrs kļuva arī par Sertificētu Lidmašīnu atleidošanas instruktoru. Aleksandrs ir pabeidzis 1. līmeņa studijas ASV, Teksasā, un pēc tam bakalaura studijas University and Logistics Management Anglijā."

Information about the company: JYSK delivers a great Scandinavian offer for everyone within sleeping and living. With thousands of stores across the world, there is always a JYSK store nearby. We are proud of our Scandinavian origin, which goes back to 1979 when Lars Larsen opened his first store in Aarhus, Denmark's second-largest city. Since then, JYSK has grown far beyond Scandinavia and has become an international company with thousands of stores across the world. Our Scandinavian roots make up the foundation of how we do business.

We are a value-driven company based on Scandinavian values such as honesty and respect – both towards customers and colleagues. We believe our employees are key to our success. That is why we strive to offer development and possibilities of growing and finding new challenges within JYSK. When our employees grow, JYSK also grows. Our ambition is to be employees' first choice within retail wherever JYSK is present. This means that JYSK must always be an attractive place to work, and that our employees enjoy the time they spend at work. We also take pride in rewarding engagement and a great effort among our employees. With the right attitude, opportunities abound in JYSK.

JYSK is a value-driven company with strong Scandinavian roots. Our JYSK Values and JYSK Leadership make up the framework for how we behave towards each other in JYSK as well as with external partners. Our three fundamental JYSK Values – Tradesman, Colleague and Corporate Spirit – originate from our founder, Lars Larsen. They express the behavior and attitude that we can expect from each other. In addition to our core values, we expect our leaders to display our JYSK Leadership, which is defined by being: Leader, Coach and Communicator.

Area of business activities: Retail

Geography: Baltics

Interesting facts: WHAT DOES JYSK MEAN? The name JYSK is important to us as a company, as it says a lot about who we are and how we act as a company. The Danish word jysk was also important to our founder, Lars Larsen, when he opened his first stores with the name Jysk Sengetøjslager. (It was later shortened to JYSK, which is our name today.) The word means someone or something originating from the Danish peninsula called Jutland. Being from Jutland, you are jysk, and people from Jutland are generally considered to be hard working, down to earth and reliable. For this reason, the JYSK spirit is a central part of the way we do business. We always strive to ensure that we serve our customers in the best possible way, and that our customers can trust us as a company. In this way, the word jysk and behaving in the JYSK way has become something everyone in our company shares. Even though the origin of the word is Danish, all JYSK employees share the values it represents, no matter where in the world they work.
